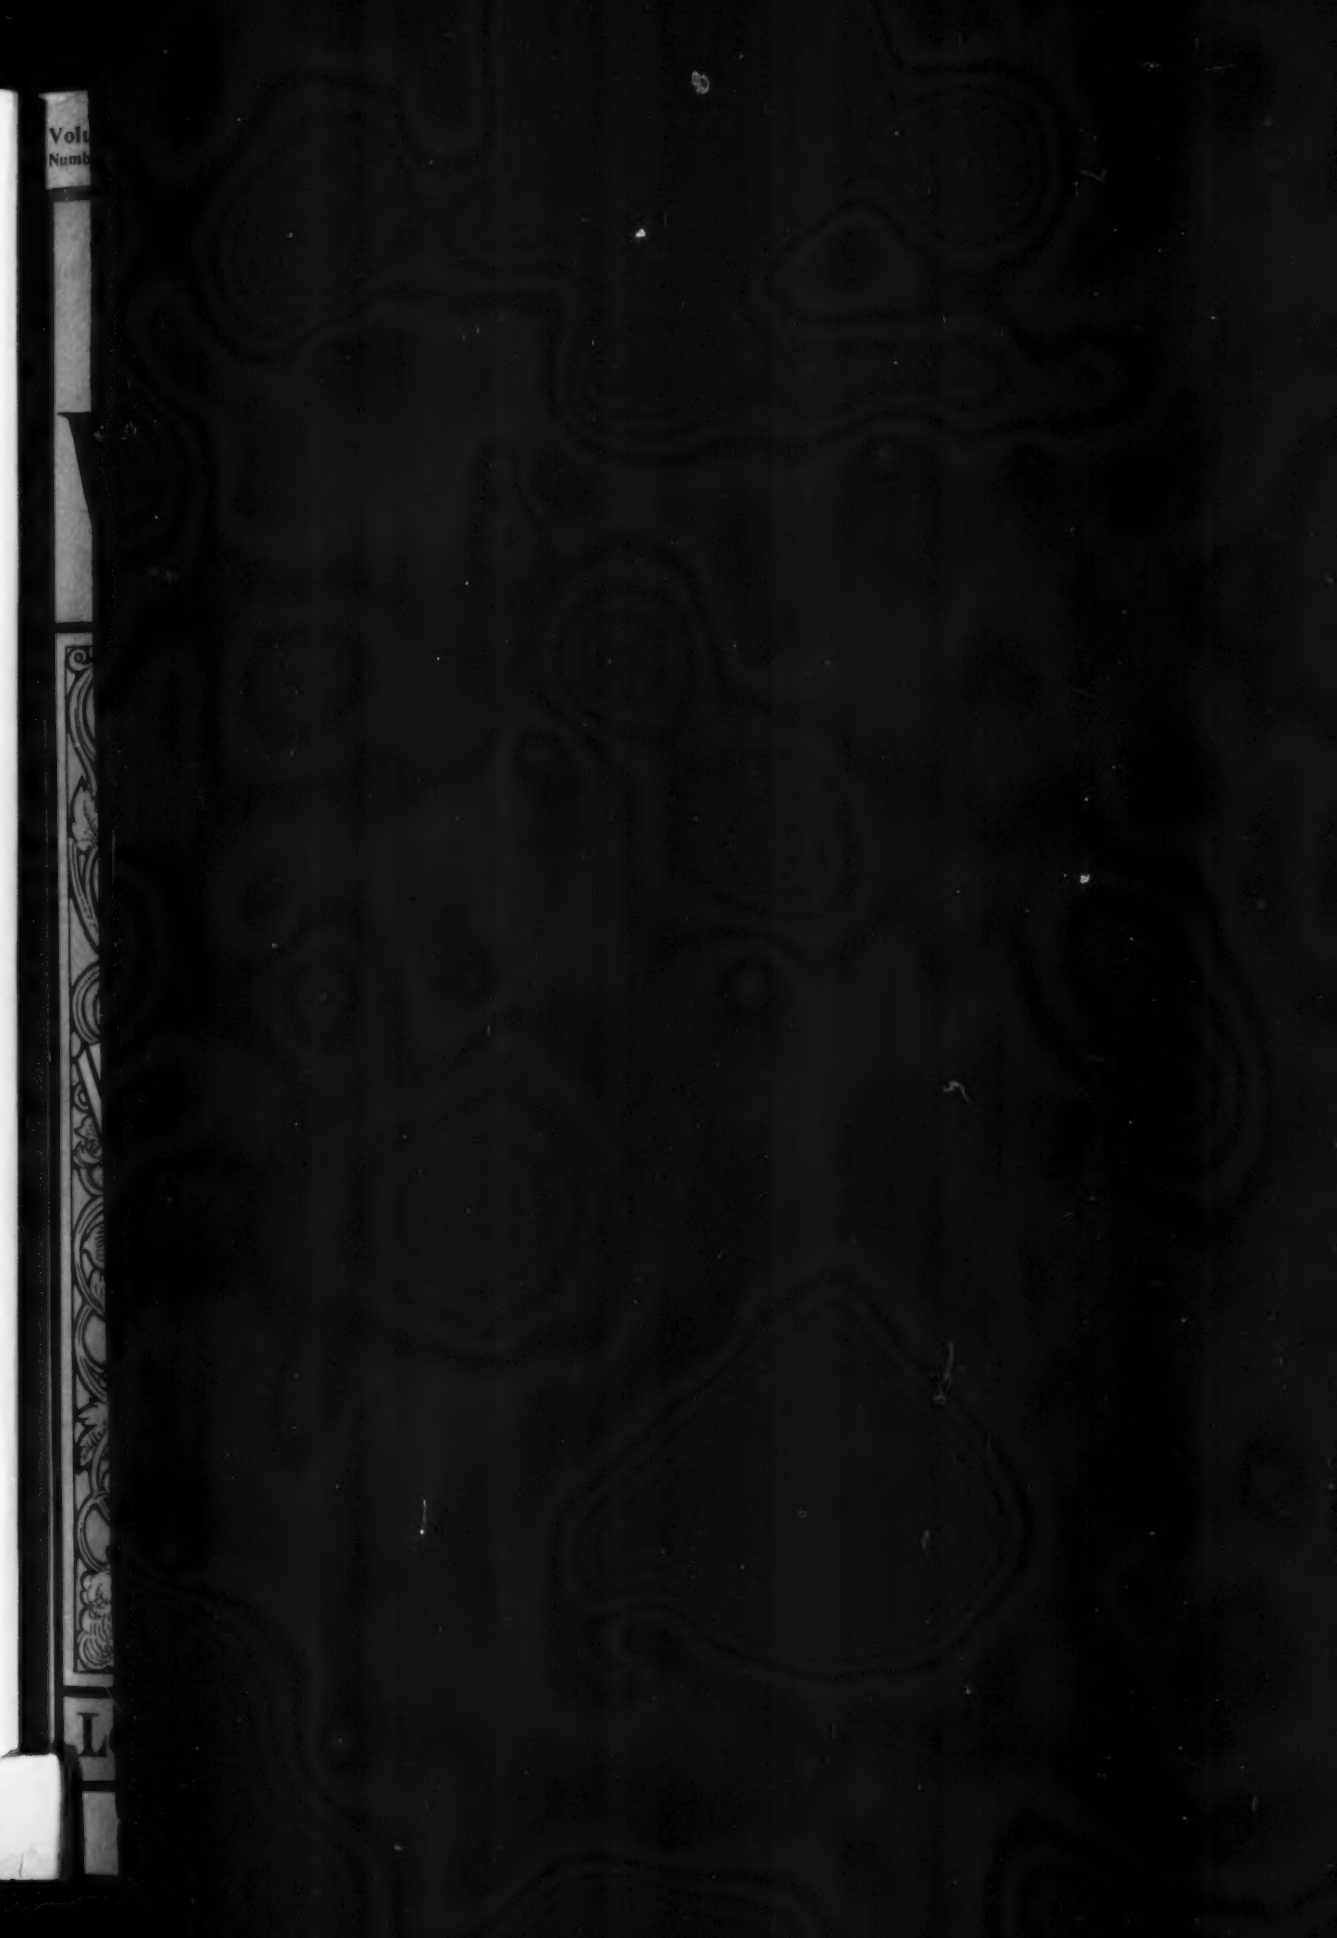
INDEX TO VOLUME XXVI.

Acid Blacks and Logwood in the Same Bath. The Use of 1441
Americans. A Hint to 338
Amiens. A Glimpse at the Textile Mills of... 594
Analysis of Men's Wear Worsteds 326
Analysis of Piece Dyed Union Suitings 75
Apprenticeship System 1092
Ashenhurst. Memorial to T. R. 1092
Australia. Cotton in 1435
Australian Wool. The Price of 325
Ball Bearings for Textile Mills 1166
Basket. The Morris Spring Bottom Duck ... 1434
Bengal. The Jute Crop in 836
Blacks. Steam 663
Bleach House Topics 602
Bleaching Machine. A New Open Width (Muntadas) 921
Bleaching in the Open Width. New Process of (Butterworth & Sons Co.) 1176
Bleaching Raw Cotton 1401
Bleaching of Raw Flax Fibres 155
Bleaching. Stains and Damages Due to 406
Bleaching and White Dyeing of Wood 154
Bobbin Filling: Its Tendency to Kink 637
Bookkeeping for Manufacturers. The Importance of Good 588
Bookkeeping. Mill 579
Brazilian Cotton 367
British Empire. Cotton Growing in 323
Bur Stand Rings. The Development of the 644, 1156
Burr Stand Tube. The Stewart Adjustable ... 1171
Calculations. Silk 1393
Calculations. Textile 1148
Calender Lustering 156
Canadian Woolen Industry. The 323
Card Feed. The Latest Fisher (Woonsocket Mach. & Press Co.) 650
Card Stamping Machine. A Novel Piano 359
Carpets. Brussels and Wilton 886, 1123, 1378
Chestnut Hill. The Mills of 1357
Cloth Extractor. Continuous 1173
Cloth Opener and Folder. The Hunter 400
Coal. The Complete Combustion of 401
Coating Threads of Fabrics with Metal 636
Colors Fast to Milling 495
Colors Fast to Milling on Shoddy 923
Colors in Silk Dyeing. The Use of the Substantive 1186
Colors. Topping of Direct 152
Comb. An Improved Expanding (Entwistle). 143
Combers. Cotton 898
Corliss Engine. Allis-Chalmers Co. New Standard Reynolds 659
Cost of Woolen Goods. Estimating the 1402
Cotton. Blending of 902
Cotton Boll Weevil. The 582, 865
Cotton and Cotton Goods 580
Cotton and Cotton Goods. Foreign Trade in, 1107
Cotton and Cotton Mills. Common Sense as to 868
Cotton. Labor and Supply of 68
Cotton Manufacturers' Association. New England 82
Cotton Preparing and Spinning Machinery. The Adjustment of 340, 599
Cotton. Reduction of Consumption of 325
Cotton Trade. The 1089
Crimmitschau. The Textile Strike at 1091
Cuba. Reciprocity with 581
Cuba. Textile Trade with 844
Cuban Cotton 631, 1093, 1107
Cuban Market for Cotton Goods. The..... ..... 596, 845, 1364
Cuban Tariff. Changes in 1348
Dahomey. The First Cotton from 324
Dictionary of Weaves. An Unabridged 1356
Dobbies. Connection for Bars in the Pattern Chain of Crompton & Knowles 111
Drawing-In Draft and Harness Chain for a Fancy Weave. How to Prepare 618
Drawing. Notes on 1133, 1371
Drying Cylinders. Improvement in 149
Duck. The Structure of Cotton 1138
Dyeing. Long and Short Chain 1111
Dyeing Machine. The Vacuum 917
Dyeing of Satins. The 665
Dyeing of Slubbing. The 1439
Dyeing of Sulphur Colors on Piece Goods, 623, 925
Dyeing Underwear 906
Dyeing of Wool and Mercerized Cotton Fabrics. The 1440
Embroidery Machine for Hosiery. A New (Fink) 911
Engineer. Of Interest to the 655
England. Free Trade in 69
England. Textile Conditions in 377, 627, 1349
England. The Woolen Industry in 835
English Conservatism 1094
English Corner in Cotton 322
English Knot Tying Device. An 404
English Notes 125, 1145
English Novelties 345
English Rainproof Coverts 1354
English Textile Schools 1103, 1355
Examining Dyed Cloth. Apparatus for 384
Exhaust System. The Hartford 920
Fabrics made from Wild Silk. Chinese 592
Fabrics. The Blackman 1435
Figured Effects on a Circular Machine 1159
Filling Detecting Mechanism for C. & K. Automatic Looms 1130
Finishing of Chinchillas. The 99
Finishing Fine Pressed Cloth Felts 344
Finishing Wool and Mixed Fabrics 117, 372, 624, 894, 1135
Fire Box Blocks. Steel Mixture 1431
Flax Fibres. Bleaching of Raw 155
Flax. Preparing New Zealand 128
France. Hours of Labor in 324
France. Sericulture in 1441
French Mills. Wages in 1114
Gear Teeth. Broken 1171
Ginghams. Plain and Fancy 607, 1120
Governor for Steam Pumps. The Mason 1433
Guide Eye for Whitin Spinning Frames. An Improved 875
Hank Indicator. An Improved 1175

Heddle. A Steel 1389
Hemp. Manila 65
Hosiery. Extracted 408
Hydrosulphite for Stripping Colored Shoddy, 155
India. The Industrial Regeneration of 331
Indian Textile Worker. The 1398
Indigo. The Direct Printing of 157
Indochromogen S 152
Information Wanted 838
Inspecting Cloth in the Weave Room. Points on 365
Italian Cotton Industry. Rise of the 68
Italy. The Cotton Industry in 1094
Jacquard Effects for Woolen and Worsted Dress Goods 881
Knit Goods Situation, 131, 388, 642, 904, 1155, 1412
Knit Goods Washer 136
Knitter. The Keystone Full Automatic 646
Knitting. A Guide to 390
Knitting Machine. An Automatic Circular (Bard) 394
Knitting Machine for Fancy Goods (Stafford & Holt) 394
Knitting Machine. A Jacquard Power (Seyfert & Donner) 912
Knitting Mill. Management of a 138
Knitting Mill. A Western 1108
Knitting Mills. My Experiences in 1160
Knitting Mills. A Northern Superintendent in Southern 1413
Knitting Needles. Improvement in (Dodge Needle Co.) 650
Knitting by Power. The First 136, 389, 648
Lace in France. Hand Made 1105
Lace Making. Instruction in 835
Lancashire Proposes Short Time 833
Leno Cloths 368, 890, 1395
Leno Motion for C. & K. Dobby Looms. An Improved 1132
Loom for Embroidery by Shuttles (Walther).. 145
Loom. A Large 335
Loom. A New Model of the Draper 148
Loom Shuttle. Coldwell & Gildard's Improved Self Threading 357
Looms. Improved Needle Operating Mechanism for Knowles Lappet 100
Looms. Two or Three per Weaver 321
Lubricants. Corrosive Action of 359
Measuring Mechanism for Draper Warpers. An Improved 612
Memoirs of a Veteran Master Mechanic 122, 632, 896, 1142
Mercerized Cotton. The Cause of Lustre on, 380
Mercerized Cotton Experiments 385
Mercerized Cotton. Observations on the Cause of Lustre on 662
Mercerized Cotton. Test for 348
Mercerizing Knit Goods in the Roll. Process of 910
Mercerizing Machine. The Hahn Automatic, 661
Mercerizing. A New Process of 90, 402
Metric Bill. Another 578
Mill Construction for 1903. The Textile World Record's Annual Report of 847
Mill. Personal Management of a 626
Mixing Room and Its Relation to the Subsequent Processes. The 639
Moire Figures. Regulating 379
New Machinery and Processes 142, 399, 653, 916, 1165, 1426
Novelties from Foreign Sources, 101, 361, 617, 1155
Oil Hole Covers and Cups on Textile Machinery. The Use of 637
Olive Oil and Its Tests 597
Peru. Cotton in 581
Philippines. Cotton Goods in the 65, 1370
Philippines. Measurements in the 1407
Picker Sticks on Draper Looms. An Improved Parallel Motion for 876
Picking and Carding. Wool 1140
Picking and Scutching. Points on 92
Pina Dress Goods 112
Power Transmission. Speed Changing 150
Printing of Cotton Pile Fabrics. The Discharge 1180
Printing of Indigo. The Direct 157
Printing. Preparation of Woolen Piece Goods for 1436
Printing. New Process of Vigoureux 926
Protection. An Object Lesson in 325
Pulley for Worsted Spinning Frames. A Tension 1427
Rag Picker. How to Set and Run a 116
Reeding Machine and Leno Selvage Motion. A 120
Reindeer Wool 1400
Roller Covering 613
Roller for Wool Scouring. An Improved Rubber (Boston Belting Co.) 1172
Rollers in the Draw Frame. Practical Points on Varnishing and Care of 621
Rolls for Drawing Frames. Practical Points on 1389
Samples. Foreign 71, 1105
School of Experience. The 837
Scouring Wool 353, 870, 1115
Scouring of Wool with Solvents. The 159
Seasonable Fabrics 72, 583, 842, 1095, 1351
Selvage. Imitation of 1090
Selvage Motion for Mason Dobby Looms. Meats' 1387
Separator. The Hartford Patent Improved Dust 148
Sewing Machine. Multiple Needle (Fales) 1179
Shaft Hanger. The American Pioneer Pressed Steel 1428
Shuttle. Sergeson's Self Threading 1127
Silk. The Duty on Raw 836
Silk. The Hardening of Artificial 384
Silk for Mordant Colors. Preparation of 1438
Silk Weighting 666, 924, 1093
Size of Single and Ply Yarn. The 630
Speed Transmission. The Reeves Variable ... 656
Spindle. A Self-Centering 635
Spindles and Looms. The World's 348
Spindles on Spinning Frames. Drag Device for 1131
Spinning Frames. A Novel Traverse Motion for 1129
Spinning Mules. Improved Anti-Snarling Motion for 96
Spooling Machines. An Improved Thread Guide for 878
Spring Needle Machines. Setting Up and Care of 133, 908, 1420
Stop Motion for Whitin Combing Machines. Feed Roller 616
Straightening Machine 1430
Suitings. Piece Dyed Union 75
Testing Yarn from Cloth. Methods of 126

Textile Designing 104, 1373
Textile Goods Should be Advertised. Why, 1368
Textile School. The Aix-La-Chapelle 1406
Textile School, Fall River, Mass. The Dedication of the Bradford Durfee 1362
Textile School Mill. A 66
Textile School. A New 65
Thread Dressing Machines. Tension Device for Spindle Band for 830
Thread Guide for Tube Winding Machines. An Improved 1386
Thread Industry. The Origin of the Cotton.. ..... 1347, 1365
Tracks. Overhead (Putnam & Co.) 920
Trade. The Men's Wear 1347
Trucks. Mill and Machine Shop (Towsley Mfg. Co.) 654
Tweeds. Harris 1098
Twills and Satins. Plain 349
Twisting Machines. An Improved Thread Retaining Bar for 879
Twisting and Winding Mechanism for Twisters. A Novel 877
Velveteen. Machines for Cutting 1104
Wages in Barcelona Mills 1176
Wages in French Mills 1114
Wages in New England Cotton Mills 577
Wages in the Textile Mills of Hungary 66
War and the Textile Industry 1345
Warp Dyeing. Sulphur Blacks in Cotton 1183
Warp Let Off for Narrow Wear Looms. Uhlinger's Improved 1128
Warping. Cones vs. Spools 381
Waste in Cotton Manufacture. Invisible 1151
Waste Economy in Silk Manufacture. The Importance of 371
Waste. Mill 899
Waste. Weave Room 114
Water for Dyehouses. Testing of 156
Water. The Money Value of Soft 1168
Water Purification for Industrial Purposes ...1431
Weaves. The Construction of Bedford Cord.. ..... 604, 873, 1117
Winder. An Automatic Ball (No. Chelmsford Machine Co.) 402
Winding Frame. The Muller Patent Traverse (Easton & Burnham Mach. Co.) 918
Winding Machine. An Ingenious Silk 1387
Winding Machine. A New Model of the Universal Cone 146
Window. A Fireproof Metal (David Lupton's Sons Co.) 403
Wool Growers' Convention 1089
Wool Growers and Manufacturers 578
Wool Manufacturers. The National Association of 71, 1092
Wool Scouring 159, 353, 870, 1115
Wool Statistics 835
Wool and Woolen Goods. Imports of 1091
Worsted Spinning. French, 78, 327, 589, 866, 1101
Yarn. A New Class of 128
Yarn on Spinning Frames. Strain Relieving Mechanism for 606
Yucca Fibre 336

Questions and Answers.


Analysis of Cloth 1152
Bleaching Cotton Yarn 129
Bleaching Raw Cotton 1411
Calculating the Width of Cloth in the Loom. 1410
Carbonizing Silk Waste 386
Card Grinding. A Physiological Defect in 130
Carding Unscoured Wool 129
Cockles 129
Commission Houses. Foreign 1153
Cost of Mercerized Yarn 386
Cuba. Cotton Cloth for 387, 641
Dye House for Skein Yarn 1409
Dyeing Raw Cotton 1153
Electricity in Bleached Cotton 387, 1153
Glaubersalt and Dyeing Tan 386
Hosiery Waste. Using 649
Knit Goods. Holes in 137
Lightning Calculator 387
Measuring Cloth in the Roll 903
Meltons. Cotton Warp 641
Mercerized Goods. Rinsing 903
Mordant for Worsted Yarn 1409
Mulberry Fibre 1153
Nets for Soaking Silk 129
Nubs for Knickerbockers 903
Paper Thread 903
Printing Hosiery 393
Sal Ammoniac and Sal Soda 1152
Salts. Common and Glauber's 130, 386
Singeing Machine for Worsted Yarn 903
Size of Single and Ply Yarn 641
Sizes of Men's Sweaters 913
Speed of Beamers 903
Speed. Change of 129
Spindles and Consumption of Cotton 1410
Stockings with White Soles 1158
Temperature of the Knitting Room 1423
Test of Cloth Extractor 1152
Testing Olive Oil 641
Testing the Strength of Fibres 641
Winding Under on Woolen Mules 386
Wool. Production of 129
